

FACT SHEET ON DENTAL IMPLANTS

DENTAL IMPLANTS:

- Are the most advanced tooth replacement system ever devised.
- Help preserve the jawbone to prevent the appearance of premature aging.
- Look and function like natural teeth.
- Are placed and restored in an outpatient procedure with minimal discomfort.
- Improve comfort, appearance, speech.
- Have a 95-99% success rate.
- Allow you to eat the foods you love as well as talk, smile and laugh with confidence.
- Represent a conservative treatment option – adjacent teeth are left untouched.
- Never develop decay.
- Never require root canals.
- Can provide great stability for a lower denture.
- Can completely eliminate the need for a denture.
- Can help people of any age.
- Give patients a third set of teeth that are natural looking and very long-lasting.

ASK YOURSELF THE FOLLOWING QUESTIONS:

Are you missing one or more of your natural teeth?

Do you have a complete or partial denture that is no longer completely comfortable?

Have you ever been embarrassed by a denture or bridge?

If you answered “yes” to one or more of these questions, call us at (210) 492-3519 or email us at lorenzanaperio@yahoo.com to schedule an evaluation appointment. It would be our privilege to evaluate your oral health and discuss treatment options with you.

New Patients Welcome!
